Bhubaneswar, Odisha | +91 7205569042 | ashutoshpradhan8013@gmail.com | Portfolio | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Enthusiastic Software Developer experienced in designing, developing, and maintaining web applications across the entire stack. Strong analytical skills and a commitment to creating efficient, scalable, and user-focused solutions.

EDUCATION

GIFT Autonomous, Bhubaneswar

B.Tech in Computer Science and Engineering - CGPA - 7.41

2022 – 2026

Bhubaneswar, Odisha

TECHNICAL SKILLS

Languages: JavaScript, Python

Backend: Node.js, Express.js, RESTful APIs, NestJS

Frontend: HTML, CSS, React.js, Redux, AJAX, Bootstrap, Tailwind CSS, Next.js

Database: MySQL, MongoDB

Testing: Postman, API Testing, Unit & Integration Testing, Selenium WebDriver (Learning)

Tools & Platforms: Docker, Git, GitHub, CI/CD, Kubernetes, Cursor AI, Claude, Copilot

Core Concepts: System Design, Data Structures & Algorithms, Computer Networks, Debugging, Problem Solving

INTERNSHIP

SyrAnexoom Software Pvt. Ltd.

Software Engineer Intern

Oct 2025 – Present

Bhubaneswar, Odisha

- Developed and maintained responsive full-stack web applications using React.js, JavaScript, Node.js, Express.js, and MongoDB.
- Implemented authentication, form validation, API integration, and application functionality based on project requirements.
- Collaborated with team members using Git/GitHub and Agile development practices throughout the software development lifecycle.

Striving Squad Pvt. Ltd.

Intern Trainee

Jun 2024 – Jul 2024

Bhubaneswar, Odisha

- Worked on a car rental application using React.js and Tailwind CSS, implementing key features like dynamic car listings, interactive booking forms, and an intuitive UI.
- Collaborated with senior mentors to debug, optimize, and improve application performance.

PROJECTS

Shopnest – Full-Stack E-Commerce Platform | MongoDB, React.js, Node.js, Express.js, Razorpay

- Built a full-stack platform featuring role-based access control (Admin, User, Delivery Agent) and secure authentication for real-time order management.
- Implemented real-time order tracking using Socket.IO, improving user experience and order status transparency.
- Designed optimized RESTful APIs and MongoDB schemas to ensure faster data processing and improved backend performance.

Drowsiness Detection System | Python, OpenCV, Dlib, NumPy

- Engineered a real-time computer vision system that detects driver drowsiness by monitoring facial landmarks and eye movements to help prevent accidents.
- Implemented an automated alert mechanism triggering visual/auditory warnings during prolonged eye closure.
- Optimized frame processing pipelines for real-time performance on standard hardware.

Smart Notes Generator | React.js, Tailwind CSS, Firebase, Groq API, Node.js, Express.js, MongoDB

- Developed a responsive single-page web application (SPA) using React.js with modular, reusable UI components and state management.
- Built interactive car listing, search, and filtering functionality to streamline user navigation and rental booking.

CERTIFICATIONS

- NPTEL Certification: Introduction to Industry 4.0 and Industrial Internet of Things
- NPTEL Certification: Cloud Computing
